Newly graduated from **Le Wagon Bootcamp**, I am looking for a **Data Analyst** job where I can use my acquired **skills** in **Data Science**. I am an **inquisitive** person, a **fast learner**, and I can pick-up things quickly with a **global picture** of them. **Passionate** about learning, I would like to continue growing in a **data team** in a **tech startup**.

💼 TRAINING & PROJECTS

Data Science Bootcamp, *Le Wagon*
2021 – 2021

- **Data Analysis**: Inspecting, cleaning, and transforming data using **Python, Pandas**. Querying database with **SQL**. Creating visualizations with **matplotlib**, and **Seaborn**.
- **Machine learning**: running supervised, unsupervised, and **deep learning models**, optimizing their parameters through **cross-validation tests**.
- **Data engineering**: Creating **Python packages** and building web app deployed on **Heroku** or **Google Cloud** with **Docker** and **Kubernetes**
- **Food to wine** ↗ : In a team of two, we built a web app that receives an image as an input and predicts a recipe and pairing wines. We used a **Word2Vec model**, a pre-trained **image recognition** model from Facebook AI, and hosted it on Google Cloud.

Web development Bootcamp, *Le Wagon*
2019 – 2019

- **Find a way** ↗ : Within a team, we designed and implemented this web app to provide career coaches and trainees the best tools possible. Built using **JS, Ruby on Rails, AJAX, HTML, CSS, GitHub**, and **Heroku**.
- **Rebuilt:** In a team of 4 and within a week, we launched an app for renting castles in exchange for work on an Airbnb-like site using **Figma, HTML, CSS, JS, Ruby on Rails**, and **Heroku**.
- **Mr-Cocktail:** Cocktail app primarily built using **Ruby on Rails, JS, API, HTML, CSS**.
